

Congratulations, you've made the Wiser Choice!

Adjust your Suite Home, Away and Sleep schedules and the Suite Common Home, Away and Sleep Setpoints via the cloud from anywhere, anytime.

Where is my main unit (SE9000) located?

The SE9000 can be found in your suite communication panel. Note that the SE9000 and the APP display the suite average temperature.

How to connect your smart device to the SE9000?

You will need

- Smart Phone
- Home WiFi network setup and connected to the internet.
- Email Account

Please use the following method:

1. Join SE9000 to your personal home WiFi network
 - a) Tap right side of SE9000 screen (don't tap left side "Tap to sync" yet)
 - b) Click menu icon at top left
 - c) Click Settings
 - d) Click WiFi
 - e) Select your personal home WiFi and complete joining process
2. On your smart device, enter URL or scan QR code

(https://play.google.com/store/apps/details?id=com.schneider_electric.wiserair_android.main)

(<https://itunes.apple.com/US/app/id924194762>)

(<https://www.microsoft.com/en-us/store/apps/wiser-air/9nblggh39b6f>)

3. Open APP and click on "Log in with email"; a create account link will appear to complete the registration process
 - a) When asked to Sync Devices, go to SE9000 and tap the "Tap to sync" to access the required sentence to enter to your Smart Device
4. You are now ready to create your own home schedule
 - a) Click menu icon at top left
 - b) Click schedule and follow steps on the screen
5. For more information on Schedules goto (<https://www.wiserair.com/up-close/>) or scan this QR code.

6. The APP sets common setpoints for all the room controllers in your suite per schedule mode. Individual set points are adjustable on each Room Controller in your suite but will be reset to the common setpoint on the next schedule event.

*Some Apps functionalities like EcoIQ, Comfort Boost and Modes (System, Ready modes, Fan) modifications are not propagated to the Room Controllers and shall not be activated or modified (this is not preventing your system to operate normally though)

Download the app and check out our site for more information on taking control to enjoy unmatched comfort and efficiency.
